Products

**ENGINE OIL FLUSH**

**Cleans and protects all petrol and diesel engines.**

- Contains the highly effective organic molybdenum compound OMC2.

**Your advantage:**

- Optimum surface smoothing due to thermoplastic deformation.
- • Reduces engine drag and wearing of materials.
- • Refreshes corroded surfaces.

- Protects against corrosion, oil sludge and clogged oil channels.

**Your advantage:**

- Extends life of engine.

- Frees gummed piston rings and cleans the oil circuit up to the piston ring area.
- Supplements the spent active ingredients of motor oil.
- Neutralises aggressive combustion acids.
- Conforms to the modern API engine oil standards.
- Newly developed concentrated agent for dirty engines or old oil.

**Your advantage:**

- New oil remains effective and clean longer.
- Loosens dirt and sludge deposits inside the engine.
- Dirt is effectively removed when used oil is drained.

- Contains surfactants with a strong detergent action.

**Your advantage:**

- Cleans and flushes the entire engine oil circuit.

**Uses / Areas of Use:**

- Every time the oil is inspected / changed.
- If black sludge is suspected.
- If hydraulic tappets chatter.
- If the oil change is overdue.
- In the event of a loss of compression from sticking piston rings.
- For all mineral and synthetic based engine oils.

Suitable for all petrol and diesel engines with or without turbocharger, with or without catalyst.
